Important

Once this digitally signed release is installed, the machine **CANNOT** be downgraded to a non-digitally signed release. Releases less than v20.105.01.004 are NOT digitally signed.

Caution

The Machine Self Signed Digital Certificate minimum key size has increased to 1024 bit. If at the time of installing this release the device's Self Signed Digital Certificate key size is less than 1024 bit the admin may have to use a browser other than Microsoft[®] Internet Explorer[®] to access the device's CWIS page in order to create a Self Signed Digital Certificate that is at least 1024 bit. Due to a Microsoft[®] Windows[®] security update Microsoft Internet Explorer may not open https pages with a digital certificate of less than 1024 bits.

Purpose

To align with the version applied in manufacturing.
