Firmware Release PL3

Release Date: June 2016

Software Release Details

Products	Firmware	Network	PCL5	PCL6	PSP	PDF	TIFF
WC3615	201604180655	80.48	201509142031	201509142031	201509142031	201509142031	201509142031
PH3610	201604180649	80.48	201509142032	201509142032	201509142032	201509142032	201411181544

Purpose

This firmware release contains the following enhancement:

- Support for SHA2 certificate for wireless connectivity
- Fixes printing issue found with certain jobs from Redhat server.
- Fixes fax dialing issue for European countries (WC3615 Only)
- Provide a drop down list on the CWIS LDAP Server Authentication Configuration page to allow the admin to configure "Match User's Login ID to the following LDAP attributes:
  - · CN (currently used / default)
  - · UID
  - · User Principal Name (UPN)
  - · SAM Account Name (sAMAccountName)
- Support to allow certain French characters to print correctly.
  - To allow these characters to print correctly the following snippets need to be downloaded and run:
    - DEFAULT_ISOLATIN_ALL.ps : to switch all PostScript fonts to ISOLatin
    - DEFAULT_ISOLATIN_HELVETICA.ps : to switch only Helvetica family to ISOLatin
    - DEFAULT_STANDARD_ALL.ps : to switch all PostScript fonts to Standard
  - The snippets can be found at the following link:
    http://www.support.xerox.com/go/getfile.asp?objid=132535
- Includes mitigation of the Poodle vulnerabilities by implementing a change to default SSL to off and use TLS only. To learn more go to Xerox Security Information page http://www.xerox.com/information-security/enus.html.
- Fixes some additional printing issues.
