

## Web Printer Manager Tool (WebPMT)

### Help File Installation Instructions:

Use WebPMT to install the WebPMT help file:

1. Browse to WebPMT on your controller (enter a URL of <http://nnn.nnn.nnn.nnn>, using the IP address of your controller). You must have the advanced TCP/IP port enabled, and have the network connected to the 10/100 port on the controller.
2. Click on the "Printer Defaults" button.
3. Click on "Utilities" -> "[Install Help Files](#)"
4. Select the downloaded help file for your language, and click on "Install".
