How to save and reprint jobs

Saving jobs using the print driver
1. Open the document to be printed. From most applications select the Office button or select File, then select Print from the file menu.
2. Select the Xerox driver from the list of print drivers available.
3. Open the print driver Properties window - the method will vary depending on the application you are printing from. From most Microsoft applications select the Properties or Preferences button to open the window.
4. If required, click the Printing Options tab. This is usually the active tab when the print driver opens.
5. Select Saved Job from the Job Type dropdown menu.
6. Select the Job Name entry box and use your keyboard to enter a name for your job.
   • Select Use Document Name from the Job Name dropdown menu to save your job with the same name as the original document.
7. Select the folder where your job should be saved from the Save To menu.
   • If your required folder does not display, you can use your keyboard to enter the name of the folder where your job should be saved. The Default Public Folder is available for all users to save their jobs to.
8. Click the OK button.
9. Select the option(s) required.
10. Click the OK button to save your settings.
11. Select the confirmation button, the name will vary depending on the application you are printing from. From most applications select the OK or Print button.

Reprinting saved jobs
1. Press the Clear All button on the control panel to cancel any previous programming selections.
2. Press the Services Home button.
3. Select the Print From... button on the touch screen.
4. Select the Saved Jobs... button.
5. Select the folder required.
6. Select the saved job required.
7. Select any options required.
8. Press the Start button on the Control Panel to print the job.

How to load paper

Machine overview

1. Open the tray.
2. Place the media in the tray. Media must be positioned against the left side of the tray.
   - Paper must not be loaded above the maximum fill line.
3. Make sure that the guides just touch the paper.
4. Close the paper tray.
   - If the tray is set to Dedicated this is the end of the loading process.
   - If the tray is set to Fully Adjustable the paper tray settings will be displayed on the screen. If the settings are correct select the Confirm button. If the settings are not correct change the settings as required.

Paper trays 1 and 2

1. Open the tray.
2. Place the media in the tray. Media must be positioned against the left side of the tray.
   - Paper must not be loaded above the maximum fill line.
3. Make sure that the guides just touch the paper.
4. Close the paper tray.
   - If the tray is set to Dedicated this is the end of the loading process.
   - If the tray is set to Fully Adjustable the paper tray settings will be displayed on the screen. If the settings are correct select the Confirm button. If the settings are not correct change the settings as required.

Bypass Tray

1. Make sure the tray is in the down position. For larger media, use the tray extension.
2. Place the media in the tray. Media must be positioned against the left side of the tray.
   - Paper must not be loaded above the maximum fill line.
   - Load pre-printed paper and labels face-up and with the top towards the front of the device.
   - Load hole punched paper with the holes on the right.
   - Load transparencies face-up. If the transparencies have a white strip load them with the white strip on the right.
3. Make sure that the paper guides just touch the paper.
   - The tray detects the position of the side guide to determine the size of the media.
4. If the tray is set to Dedicated this is the end of the loading process.
   - If the tray is set to Fully Adjustable the paper tray settings will be displayed on the screen. If the settings are correct select the Confirm button. If the settings are not correct change the settings as required.

Paper trays 3 and 4

1. Open the tray.
2. Place the media in the tray. Media must be positioned against the left side of the tray.
   - Paper must not be loaded above the maximum fill line.
3. Close the paper tray.
