

Recommended Xerox Materials List of WorkCentre 7132

For use in Europe

Revision 1.2 - Issued August 2006

Important Notes:

All media is listed by product, paper tray settings - image quality, weight (standard gsm), re-order number, size, tray runability, and integrated office finisher runability. The additional information column is for hints and tips on how to run certain media applications.

Machine reliability specifications may be affected by increased usage of Heavyweight 1, Heavyweight 2, Coated 1, and Coated 2 modes. In addition, variances in machine reliability may occur due to extended use of some media types. Your Xerox service representative can advise you on using Heavyweight 1, Heavyweight 2, Coated 1, and Coated 2 modes or special application media types for long duration copy/print runs

Environmental Conditions may require that coated paper be fed one sheet at a time through Tray 5, (Bypass/SMH). Relative Humidity greater than 40% could cause multifeeds. Output may require removal at 25 sheets in the tray when not using a finisher

The Integrated Office Finisher is capable of stapling at maximum (maximum number may decrease if paper weight is greater than 90 gsm):

- 50 Sheets of in B5, A4, or 16k in Long Edge Feed (LEF); or of A4 in Short Edge Feed (SEF)
- 30 Sheets of B4, A3, or 8K

If only papers which require Paper Tray Settings - Image Quality other than the default setting (Plain D) will be used, the administrator can change the default setting to match the Image Quality setting of the paper being used.

For the latest line of Xerox supplies contact your local Xerox representative or a recommended distributor. For the most recent version of this list visit our website at www.xerox.com, select "Country", then "Supplies".

Trays 1,2,3, TTM & SMH:
 Coated 1 (106 - 169 gsm)
 Plain / Recycled (64 - 105 gsm)
 Coated 2 (170 - 216 gms)
 Paper Types are selected when Paper Tray is closed.

Transparency:
 Heavyweight 1 (106 - 169 gsm)
 Heavyweight 2 (170 - 216 gsm)
 Label

RML WorkCentre 7132 Europe V 1.2

Integrated Office Finisher **
 • Capable of Stacking Paper Type
 ♦ Capable of Stapling Paper Type

A = Auto Duplex Full Color
B = Auto Duplex Monochrome
 S = Simplex Only
 M = Manual Duplex

*For usage of these papers, machine administrator may change the default setting of the "Plain" Paper Type in the Image Quality section of the Paper Tray Settings from the default to "Plain A"

** Integrated Office Finisher will staple maximum of:
50 sheets of Letter, Executive, B5(LEF), A4(LEF/SEF) or 16K papers
30 sheets of Ledger/Tabloid [17x11], Legal [18.5x14], B4, A3, or 8K papers
Stapling capability will depend upon weight of paper
