### THE XEROX 5900 PRODUCTION SERIES COPIERS

X

### THE BEST JUST Gets better

THE DOCUMENT COMPANY XEROX

# **Xerox 5900 Production Series Copiers**

### We couldn't leave well enough alone.

We started with the world's leading line of high-volume copiers, the Xerox Production Series. And we just couldn't stop. We added more power and more control; greater versatility and ease of use; improved economics, and expanded finishing capabilities.

х

#### The result is the Xerox 5900 Production Series Copiers:

Xerox 5900*i* Copier Xerox 5900 Copier Xerox 5995 Copier Xerox 5990 Copier

They look like incredibly powerful, fast and sophisticated copiers. They are all that, and more. The 5900 Production Series copiers are the latest and greatest from Xerox, the leader in high-speed document production.

> All in a day's work. At 120 pages per minute and with powerful paper handling and finishing, the Xerox 5900i copier gives you the power to get a lot of work done every day.

### Get quality work done better and easier at 120 pages per minute.

Are high-page count and/or complex jobs a daily challenge? Do you have to turn a lot of different pages into finished documents in not a lot of time? If you answered yes, then the Xerox 5900 Production Series is the answer you've been looking for. It's the solution you can count on when the pressure is on for high-quality, high-volume work, and no ordinary printer or copier will do.

## The simple solution to high-speed production.

For high-volume environments with long runs including high page counts and set counts, the Xerox 5900i and 5900 Copiers give you 120 page per minute performance. Combined with Xerox reliability and versatility, that's fast enough to cut a day's work down to size.

With a capacity of 150 originals, Xerox 5900 Production Series Copiers can do high-page-count jobs in a single run.

The Interposer adds three more trays to the Xerox 5900i. That gives you added versatility to combine multiple stocks in the same job automatically... up to six stocks in a single job!

### The simple solution to complex finishing.

Many organizations have challenging document production jobs with a mix of different originals—reports that require covers and tabs, presentations that have multiple stocks, product and training manuals that require stitching and folding.

With the Xerox 5900i, you can handle these jobs in-line from start to finish. Simply load your originals. Program your job on the easyto-follow User Interface. Hit start. And pick up finished documents in the output tray. That's as simple as it gets for complex documents.

In-line finishing options enable you to simplify and automate the completion of complex jobs. Turn 11 x 17" (A3) sheets into folded booklets, perfect bind a report with covers and tabs, add page numbers and time and date stamps to reference documents.

3

# The "Green Button" simple solution

#### Xerox makes document production "Green Button Simple."

Even casual users can walk up, load their originals, program their job, and hit the green button. It's that easy. All of the functionality is just a fingertip away on the easyto-follow touch screen User Interface.

That means with minimized training and start-up, you can get optimum usage on your Xerox 5900 Production Series Copier... whether it's in a hallway, a copy room, or a managed production environment.

What's more, you can customize your User Interface. You can display the most commonly used features on top. Add a mouse and program jobs with a point and a click.

### The simple solution to improved economics.

Given the daily challenges you face, you won't find a better investment than the Xerox 5900 Production Series Copiers.

Xerox combines high reliability, low maintenance, and the ability to get complex work done quickly, simply and with minimum labor. That's a productivity package that others simply can't match.

Plus they're backed by our industry-leading service and support, and the Xerox Total Satisfaction Guarantee. That's what you need to maximize your return on investment.

# The simple solution to integrated production.

The Xerox 5900i with the Interposer module is the right solution for highspeed production and finishing of jobs that integrate color and black and white, and digital and offset pages in the same job. Create a master from any number of sources, and then run and finish the job at up to 120 pages per minute. The Xerox 5900i is right at home in any production environment.
