

**Recommended Materials List for DocuColor 6060**

Review Date: 6/24/2005

Last review 2/1/2005

**Important Note:**

Media recommendations made in this publication are based on qualification tests conducted using standard test images with moderate to heavy image area coverage. Test machines are maintained within specifications defined by user documentation.

\* Testing Environment temperature range of 60-75 deg. F, Relative Humidity range 20-50%.

Reliability is based on your operating environment and application mix.

Machine reliability specifications may be affected by high usage of heavy weight and specialty stocks. In addition, variances in machine reliability may occur due to extended use of some media types.

**Warranty disclaimer**

Xerox makes no guarantees or warranties, either expressed or implied, concerning the performance, use, or replacement of non-Xerox branded media or throughput products. Customers should inquire directly of their paper distributor or manufacturer for any guarantees they may offer. When purchasing a particular media product for the first time, customers are advised to purchase small quantities to insure their expectations are met. The quality of Xerox supplies is consistent from ream to ream and is backed by a 100% guarantee. The quality of non-Xerox branded paper may vary from ream to ream or carton to carton, so for optimum performance on Xerox color equipment, use only the best - Xerox Supplies. To learn more about the benefits of using Xerox Supplies, please contact your Supplies Representative or call in the US 1-800-822-2200 and in Canada 1-800-668-0133.
