March - 2022

Dear Customer:

Thank you for choosing Xerox. These instructions will assist you with the installation of FreeFlow® Repository Management Server (RMS) 9.0.25.1.

### **Prerequisites:**

The following prerequisites and steps should be followed to help ensure a successful installation of FreeFlow® Repository Management Server (RMS) 9.0.25.1:

- A valid copy of FreeFlow Repository Management Server 9.0 must be already installed.
- It is the customer's responsibility to ensure all data is backed up prior to the install.
- A previous working knowledge of FreeFlow Repository Management Server is recommended.
- Xerox does not recommend utilizing FreeFlow products of different versions in a single environment.

### **Install Steps:**

1. Double Click on the **FreeFlow-9.0.25.1-MNUpdate.exe** file.
2. Choose a language and select **<Next>**
3. A FreeFlow extractor will open and files begin to extract.
4. Select **<Next>** at the FreeFlow RMS Patch splash screen.  
**NOTE:** This may take some time.
5. Select **<Finish>** at the FreeFlow RMS Patch window.
6. System should automatically restart, if not, please restart your system.
7. Log in under your normal account, installation is complete.

Should you have any difficulties with performing downloads or installations, please contact your local Xerox Customer Support Hotline.

Thank you again for choosing Xerox.
