

# Firmware Installation Instructions

You can update your printer when Xerox releases a new version of printer software or firmware.

Before you begin:

- Determine the current software version of your printer.
- Download the latest software update.

Determining the Printer Software Version

1. In Xerox® CentreWare® Internet Services, click **Properties > General Setup > Configuration**.
2. To verify the software installed on your printer, scroll down to **Software Versions**.

**To Print a Configuration Report**

- At the printer control panel, press the **Home** button.
- Touch **Device > About > Information Pages**.
- Touch **Configuration Report**.
- To return to the Home screen, press the **Home** button.

Enabling Upgrades

1. In the Embedded Web Server, click **System**.
2. Click **Software Update**.
3. In the Software Update area, click **Enable**.

## Installing Software Upgrades in Xerox® CentreWare® Internet Services:

1. In Xerox® CentreWare® Internet Services, click **Properties > Maintenance**.
2. Click **Firmware Upgrade**.
3. To locate and select the firmware upgrade file in .dlm format, click **Browse** or **Choose File**.
4. Click **Open**.
5. Click **Install Software**.
6. To verify that the software has updated, check the configuration report.

Note: Software installation begins several minutes after you submit the software to the printer. Xerox® CentreWare® Internet Services is unavailable while the software is installing.
