

## Xerox SAP Printing Solutions Customer Expectations Document – Version 5.1

### Customer Supported Environment

<b>Xerox Solution Elements:</b>	<ul style="list-style-type: none"><li>• Xerox SAP PCL and PostScript Device Types (SAP Versions 3x, 4x, 4.5x, 4.6x, Enterprise 4.7x, ECC 5.0 and above) for general printing.</li><li>• Xerox SAP R/3 PostScript Intelligent Barcode Printing Solutions.</li></ul>
<b>Xerox Solution Components:</b>	<ul style="list-style-type: none"><li>• Xerox SAP PCL and PostScript Device Types</li><li>• Xerox International Unicode Printing</li><li>• Xerox PostScript Intelligent Barcode Printing Solution</li><li>• Xerox PCL Intelligent Barcode Printing Solution</li></ul>
<b>Xerox Printers Supported:</b>	<ul style="list-style-type: none"><li>• Refer to SAP Note 1447606 for list of Xerox printers that are part of the SAP Printer Vendor Program</li><li>• Refer to <a href="http://www.XeroxOfficeSAPSolutions.com">www.XeroxOfficeSAPSolutions.com</a> for list of all Xerox SAP PCL and PostScript Device Types</li></ul>
<b>Installation:</b>	Installed by customer's SAP site system administrator
<b>Documentation:</b>	<ol style="list-style-type: none"><li>1. XeroxDeviceTypesInstall.pdf</li><li>2. SAP Note 1447606</li></ol>

### Supported Features

The Xerox Device Types provide value-added features to SAP application printing:

- Simplex or duplex printing – print single or double-sided documents
- Finishing – output tray location, single/dual stapling, multi-staple positioning, and punching. Check the availability of finishing features on your printer.
- Input tray source – pull paper stock from up to six different trays

- POSS page format – support for SAP's Print Options for SAPscript and SAP Smart Forms (POSS)
- Secure printing – print secure jobs. Contact Xerox technical support for assistance.
- Job Based Accounting (JBA) – manage printer user accounts. Check the availability of this feature on your device (may require separate application software to track accounting on the printers). Contact Xerox technical support for assistance.
- Printer banner sheet – enable/disable printer banner sheets
- Intelligent barcode printing – available with Xerox SAP PostScript and PCL Intelligent Barcode Solutions
- Unicode printing – for ordering the Xerox International Unicode Printing kit, please contact your customer sale representative or technical support

### Xerox SAP Solution Components

#### Xerox SAP Printer Vendor Program PCL and PS Device Types:

Device types and documentation for Xerox printers that are part of the SAP Printer Vendor Program can be downloaded from the SAP Service Marketplace via [SAP Note 1447606](#)

#### Xerox SAP PCL and PostScript Device Types:

The following files can be downloaded from [www.XeroxOfficeSAPSolutions.com](http://www.XeroxOfficeSAPSolutions.com)

1. PCL and PostScript Device Types for all Xerox PVP supported printers.
2. SAP Note 1447606 Printer Vendor Wizard Note : Xerox
3. PCL and PostScript Device types for all the supported printers.
4. Character set code page S9117 for PostScript Device Types for SAP R/3 3x and 4x
5. ZPRNXRX3.txt ABAP load program file for SAP R/3 3.x or before.
6. ZPRNXRX4.txt ABAP load program file for SAP R/3 4.x.
7. Release Notes V5.1

### **Xerox PostScript Intelligent Barcode Printing Solutions:**

The **Xerox PostScript Intelligent Barcode Printing Solution** enables Xerox PostScript printers for automated and error free barcode printing from SAP R/3, mySAP, ERP, ECC, MS Word or other ERP applications that support PostScript printing. The Xerox SAP PostScript device types are pre-configured to support the barcode printing solution. The PostScript Intelligent Barcode Printing Solutions package contains:

1. Installation documentation
2. Xerox Barcode Pro PS, an application independent printer HDD/DIMM based solution. This solution would work in **all SAP system versions, from Microsoft Word, and other word processing applications.**

### **Xerox SAP PCL Intelligent Barcode Printing Solution**

The **Xerox SAP PCL Intelligent Barcode Printing Solution** enables Xerox select PCL printers for automated and error free barcode printing from SAP R/3 and mySAP ERP applications.

### **Xerox International Printing Solution**

Select Xerox printers can print Unicode documents from SAP through the installation of the Xerox International Printing Kit which contains a set of Andale Unicode fonts.

Once enabled, Unicode can be printed from SAP by using of the Xerox Unicode (UTF-8) device types

To obtain contact your sales representative or Xerox technical support

---

### **Caveats**

---

1. The current offering is available in English and device types support ISO 8859-1 (Latin 1) languages and also International language printing with UTF-8 printing on only limited number of printers.
2. PCL XL (PCL 6) not supported in SAP/R3
3. All PCL and PS device types for new Xerox printers will only be released under the SAP Printer Vendor Program
