Purpose

This release provides the following enhancements:

- Reliability improvements.
- Improved LDAP query speed.
- Server Fax default resolution corrected to avoid distorted images.
- Includes the capability to conduct LDAP lookups across multiple domains using the Authenticated User's credentials.
- Now able to delete a secure print job if the administrator's password is alphanumeric
- Able to suppress job names in the device's queue.
- Improved scan quality when scanning a JPEG, Black & white photo mode image.
- Accurate 'Sent Time' for emails.
- Remote templates are not deleted when the device cannot connect to the template pool server.
- The device will reliably come out of sleep mode.
- When in the Network Scanning feature the 'Clear All' button now reverts the user back to the default device pathway.
- Hostname fix for Kerberos authentication.
- "Held Pay For Print" jobs are automatically deleted per the configuration settings of the "Held Job Timeout" feature.
- The correct date now appears on the stored file when Scanning via SMB to EMC2 file server.
